

Superior online conferencing calls **whenever** and **wherever** you want to meet

Video conferencing has never been easier. In just a few clicks you can schedule and host an audio and video conference in a secure virtual meeting room.

Successful meetings start with MeetMe

MeetMe is a cloud based video conferencing service. A MeetMe Virtual Meeting Room (VMR) is able to host up to 50 participants from different devices and video platforms, from anywhere in the world. The service eliminates the need for huge capital infrastructure investment and limits the costs associated with managing complex infrastructure as well as travel costs.

Invite participants to join your MeetMe virtual meeting with ease through any of the following methods:

- Web browser—Chrome, IE, Safari, etc.
- Skype for Business
- Via the dedicated My Meeting app for desktops, mobile phones (IOS and Android) and tablets
- Video-conferencing hardware systems via SIP, H.323 or ISDN video protocols
- Audio dial-in with local and international dial-in numbers

Discover the unique features

Simplicity

Invite participants, join and host meetings at a click of a button, eliminating the need for huge investment in infrastructure and the management thereof
